### SUMMARY

Software Engineer with six years building ERP, SaaS, and ecommerce systems — Laravel with PostgreSQL and MySQL on the backend, React, Next.js, and Vue on the front. Nearly four of those years were remote, delivering for international clients. Led end-to-end delivery of enterprise inventory systems that lifted client operational efficiency by 40%, and core-developed an in-house framework that cut business costs by around 30%. Comfortable owning delivery through queues, Docker, VPS, and CI/CD, and leading code review and junior developers.

### EXPERIENCE

- Software Engineer · StepUp Technology Limited** APR 2025 – PRESENT · DHAKA, BANGLADESH
  - Led end-to-end development of enterprise Inventory Management (ERP) systems on Laravel, PostgreSQL, React, and TypeScript, lifting client operational efficiency by 40%.
  - Designed and built Boneek, a multi-tenant commerce platform on Laravel, PostgreSQL, React, and TanStack Query — admin panel, merchant dashboard, auto-provisioned storefronts, dropshipping, WooCommerce sync, and an AI order-confirmation calling agent.
  - Shipped HLS live streaming, covered critical paths with unit and feature tests, and reviewed code while leading junior developers across the frontend, mobile, and backend teams.
- Software Engineer · Nogor Solutions Limited** MAR 2024 – MAR 2025 · DHAKA, BANGLADESH
  - Core developer of CSFD (Customize Software for Development), built with Laravel, MySQL, Vue, Bootstrap, and SCSS to stand up web applications quickly.
  - Designed and delivered ERP solutions and web applications that automated manual work and cut business costs by around 30%.
  - Collaborated across the team, reviewed code, and led junior developers.
- Software Engineer · Creative Technology** SEP 2020 – FEB 2024 · REMOTE
  - Built and maintained web applications with Laravel, React, TypeScript, and MySQL, automating manual processes and reducing business costs.
  - Optimised for performance and scale through code splitting, query optimisation, and caching, and resolved complex production issues.
- Web Developer Intern · W3S Cloud Technology** JUN 2020 – AUG 2020 · REMOTE · DHAKA, BANGLADESH
  - Built a custom WordPress plugin syncing WooCommerce leads into Pipeline CRM, automating lead management and removing manual re-entry.
